

Limited Submission Funding Opportunities – updated 1/21/22

Please be aware that any grant that brings in less than 15% in indirect costs (IDC) will need to be supplemented up to the 15% equivalent by existing investigator or departmental sundry funds. Resolution of this issue must occur prior to submitting a proposal. Training fellowships from foundations, public charity, and non-profit organizations are excluded from this minimum IDC requirement.

For MGH investigators selected through a competitive process as the institutional nominee for any limited submission funding opportunities, in situations in which the grant will bring in less than 15% indirect cost (IDC), ECOR will cover the IDC gap up to a maximum of \$50,000 per year. In order to optimize the distribution of limited ECOR funds across the MGH research community, it is expected that PIs and departments will work together to cover the remaining IDC shortfall.

This policy is only effective for those limited submission opportunities in which MGH is invited to submit its own nominee(s). This policy does not apply for those limited submission opportunities in which the MGH investigator must apply through HMS.

For further questions, please contact ECOR at ecor@mgh.harvard.edu

We ask that all MGH Investigators interested in applying for any limited submission award submit a Letter of Intent (see detailed instructions below) to the MGH Executive Committee on Research (ECOR) by the deadline indicated for each award to be considered to receive an institutional nomination.

Process

Submit a one- to two-page Letter of Intent (LOI) to the MGH Executive Committee on Research (ECOR) via email to ecor@mgh.harvard.edu. In addition to your LOI, please include an NIH Biosketch.

The letter of intent should include:

1. Name of the Principal Investigator with appropriate contact information
2. A descriptive title of the potential application
3. Brief description of the project
4. Brief description of why you specifically should be selected to receive institutional nomination for this award

In the event that there is more than one MGH investigator interested in applying for a limited submission award, the LOIs will be used to assess candidates and a review and selection process will take place.

If there is a limited submission funding opportunity you do not see listed below or you have any additional questions, please let us know at ecor@mgh.harvard.edu.

CURRENT OPPORTUNITIES

1. Biomedical Research Facilities (C06 Clinical Trial Not Allowed)

<https://grants.nih.gov/grants/guide/pa-files/PAR-22-088.html>

MGH LOI Deadline: 1/24/22

NIH LOI Deadline: 2/15/22

NIH Application Deadline: 3/15/22

This Funding Opportunity Announcement (FOA) invites qualified academic and research institutions to apply for funding to modernize existing or construct new biomedical research facilities. Applications will be accepted from public and private nonprofit institutions of higher education as well as from non-profit research organizations. Applications from both research-intensive institutions and Institutions of

Limited Submission Funding Opportunities – updated 1/21/22

Emerging Excellence in biomedical research from all geographic regions in the nation are strongly encouraged.

NIH recognizes the importance of all institutions of higher learning in contributing to the nation's research capacity. The goal of this FOA is to upgrade or create novel biomedical research infrastructure to strengthen biomedical research programs. Each project is expected to provide long-term improvements to the institutional research infrastructure. Targeted projects are the construction or modernization of core facilities and the development of other infrastructure serving an institution-wide research community on a shared basis.

2. Coordinating Center for the Claude D. Pepper Older Americans Independence Centers (OAICs) (U24 Clinical Trial Optional)

<https://grants.nih.gov/grants/guide/rfa-files/RFA-AG-23-006.html>

MGH LOI Deadline: 3/09/22

NIH LOI Deadline: 4/16/22

NIH Application Deadline: 5/16/22

The National Institute on Aging (NIA) seeks applications for the Coordinating Center (CC) of the Claude D. Pepper Older Americans Independence Centers (OAIC) program. The CC serves as a facilitator for OAIC site interactions and as a conduit for translating OAIC objectives and findings to both scientific and general audiences. The proposed CC must demonstrate an ability to work cooperatively with all OAIC sites and possess sufficient scientific expertise in geriatrics and related areas to serve the national coordination functions of the OAIC program. The CC should be proposed only by institutions with (1) the ability to coordinate multi-site projects as demonstrated by previous HHS funding for a coordinating center of a multi-site research grant, and (2) demonstrated scientific expertise in clinical aging research.

3. Asthma and Allergic Diseases Cooperative Research Centers (U19 Clinical Trial Optional)

<https://grants.nih.gov/grants/guide/rfa-files/RFA-AI-21-079.html>

MGH LOI Deadline: 3/14/22

NIH LOI Deadline: 5/03/22

NIH Application Deadline: 6/03/22

The purpose of this Funding Opportunity Announcement (FOA) is to invite applications from single institutions or consortia of institutions to participate in the Asthma and Allergic Diseases Cooperative Research Centers (AADCRC) program. The program will support centers that integrate clinical and translational research to conduct studies on the mechanisms underlying the onset and progression of diseases of interest, including asthma, rhinitis (allergic and non-allergic), chronic rhinosinusitis, atopic dermatitis, food allergy, and drug allergy. The overarching goal of the program is to improve the understanding of the pathogenesis of these conditions and to provide a rational foundation for new, effective treatments and prevention strategies.
