

Wellman Center for Photomedicine

Call for Applications

Bullock Postdoctoral Fellowship

Proposal deadline: 5:00 pm – November 2, 2020

Award decision: December 21, 2020

The Wellman Center for Photomedicine at the Massachusetts General Hospital is pleased to invite applications for the Bullock postdoctoral fellowship for research aimed at understanding and solving important biomedical problems. PhD, MD and MD PhD research fellows are eligible for this award.

This multidisciplinary fellowship was created to foster interactions between researchers from diverse fields of science and medicine. Combined mentorship and collaboration between two Harvard Medical School faculty members, at least one of whom is based at the Wellman Center, **is required**. An external collaborator is preferred. It is anticipated that the fellow will perform most their research at the Wellman Center. For additional information regarding the Wellman Center please visit <http://www.massgeneral.org/wellman/>

The Fellowship will provide one year of support. An award of up to \$60,000 **direct costs** is anticipated. The award will be administered by the Wellman Center. Funds may be used for stipend (**minimum effort 60%**), fringe benefits and research supplies. Recipients will be required to submit periodic progress reports, present their work at a noon lecture and submit a final written report

Criteria for funding are scientific quality, an enabling collaboration that might not occur otherwise, potential medical and scientific impact, and career development of the Fellow.

Eligibility and other award information are provided below.

Eligibility

- 1. Candidate must be at the postdoctoral training level at the time of the award.**
- Candidate must have a primary appointment at the Massachusetts General Hospital or another Harvard affiliate hospital or a department of Harvard Medical School at the time of the proposal and during the entire award period. The award is not transferable. If the awardee leaves MGH or Harvard during the award period the awardee must notify the Wellman Center (contact John Scaife, Administrative Director) and will forfeit any remaining funding.
- 3. Combined mentorship and collaboration between two Harvard Medical School faculty members, at least one who is appointed at the Wellman Center, is required. An external collaborator is preferred.**

Application Guidelines

- The Bullock Fellowship Award will support post-doctoral investigators pursuing training in either basic or clinical research. **The award will begin on or about January 1, 2021 and is intended for one year. The fellowship review committee will consider a one-time 6 month no cost extension (maximum project duration, 18 consecutive months). Request for extension should be submitted to BullockFellowship@partners.org a minimum of 6 weeks prior to award end date.** Any remaining funds at the end of the award period will be forfeited. Bullock awards are not transferable to another institution.
- Proposals will be evaluated and ranked for funding priority by an ad-hoc external review committee, whose recommendations will be submitted to the Director of the Wellman Center and the Bullock Family for final consideration.
- All applicants will be notified by email regarding the review committee's decision. Candidates will not be provided with written or oral critiques of their applications.

- If an awardee already has or subsequently receives other fellowship funding, he/she is eligible for the Bullock award funds only if permitted by the other sponsor *and* only to the extent that the combined stipend does not exceed the awardees' institutional base salary.

Application Materials

1. Title page, including:
 - Title of research project
 - Applicant's Name, Service or Department/Unit, professional appointment title, office or laboratory address, telephone and fax number, and e-mail address
2. Summary of research project (500-word limit)
3. Research plan (5-page limit) to include:
 - Specific aims
 - Background and significance
 - Preliminary data (if available)
 - Experimental design and methods
 - References
 - Potential scientific and medical impact
4. Budget (NIH format), **minimum effort 60%**.
5. NIH biosketch of the applicant and fellowship supervisors
6. Listing of current and pending support (NIH format)
7. Applicant's description of long-term career plans (one-page limit).
8. Letters of support addressed to Bullock Review Committee stating specific commitment from collaborating mentors, and briefly describing how Bullock support will impact the fellow's career development.

Submission

Electronic applications should be submitted to:

BullockFellowship@partners.org

Deadline: No later than 5 pm on November 2, 2020.

Questions can be addressed via e-mail to BullockFellowship@partners.org

Massachusetts General Hospital is an Equal Opportunity Employer. Women and minorities are encouraged to apply.
