
FOUNDATION FUNDING OPPORTUNITIES: MAY 13, 2022

Please contact Corporate & Foundation Relations in the Office of Development at devcfr@mgh.harvard.edu if you wish to submit a proposal in response to any of these opportunities. Note that proposals are still routed through the standard InfoEd/Research Management process.

Please be aware that any grant that brings in less than **15% in indirect costs (IDC)** will need to be supplemented up to the 15% equivalent by existing investigator or departmental sundry funds. Resolution of this issue must occur prior to submitting a proposal. Training fellowships from foundations, public charity, and non-profit organizations are excluded from this minimum IDC requirement.

The MGB **Proposal Deadline Policy** establishes internal deadlines for sponsored research proposals to ensure that submissions meet sponsor criteria and institutional/regulatory requirements. Deadlines are:

- The complete Administrative Components are due to Research Management (RM) on or before the **8th Business Day** by 5 PM.
- The Final (Science) Components are due to RM on or before the **3rd Business Day**.

1. Faculty Scholars Grant Program, American Association of Colleges of Nursing (AACN)

The Foundation for Academic Nursing, the philanthropic arm of AACN, is pleased to announce a second round of funding for the AACN Faculty Scholars Grant Program. The program is aimed at highlighting the innovative work being led by nurse educators to redesign teaching and learning at AACN member schools.

Academic Year Themes:

Diversity, Equity, and Inclusion

- Achieving health equity and promoting a culture of health
- Recruitment and retention of nurse faculty and students of color
- Impact of nursing workforce diversity on patient outcomes
- System facilitators and barriers to preparing a diverse nursing workforce

Innovation and Excellence in Academic Nursing

- Execution of competency-based nursing education
- Competency assessment in competency-based education
- Developing leadership capacity in nursing faculty and students
- Innovative clinical experiences across the four spheres of care

Eligibility requirements (partial list):

- All faculty at AACN member schools are eligible to apply.

Citizenship: Unspecified

Award Amount: \$25,000 for 1 year

Indirect Costs: 20%

MGB Research Management Deadline: July 27, 2022

Application Deadline: August 5, 2022

Website: <https://www.aacnnursing.org/About-AACN/Foundation-for-Academic-Nursing/Faculty-Scholars-Grant-Program>

2. Research Supplement to Promote Diversity in Science, American Heart Association (AHA)

The purpose of the research supplement is to enable current AHA awardees to identify and serve as mentors for predoctoral and postdoctoral fellows from underrepresented racial and ethnic groups in science and medicine (Black/African American, Hispanic/Latino, American Indian/Alaskan Native, or Native Hawaiian/Pacific Islander).

Key elements of a successful application will include:

1. A trainee who has demonstrated excellent potential for conducting research. The fellow will initiate the application in ProposalCentral and will be the awardee/PI.
2. A research plan that expands or augments the currently funded AHA research project and the fellow's skills. The mentor and fellow will prepare the application jointly. The mentor's institution will be responsible for administering the project.
3. A capable mentor(s) who has constructed a strong development plan for the fellow.
4. A training environment that will facilitate the fellow's success.

Eligibility requirements (partial list):

- An eligible AHA-funded investigator identifies an eligible trainee from an underrepresented racial or ethnic group in science and medicine to mentor.

Citizenship: United States

Award Amount: \$50,640-\$128,016 paid over 1-2 years

Indirect Costs: None

MGB Research Management Deadline: January 20, 2023

Application Deadline: February 1, 2023

Website: <https://professional.heart.org/en/research-programs/application-information/research-supplement-to-promote-diversity-in-science>

3. Playmaker Grant, American Orthopaedic Society for Sports Medicine (AOSSM) **NEW!**

The American Orthopaedic Society for Sports Medicine, under the auspices of its Research Committee and in co-ordination with and support from The Aircast Foundation, invites letters of intent for its playmaker grants. These support ambitious, exploratory, and groundbreaking projects in orthopaedic sports medicine.

Eligibility requirements (partial list):

- Any investigative team seeking a grant must include at least one member of AOSSM in good standing.

- No AOSSM Board officer may be a named investigator on an application.

Citizenship: Unspecified

Award Amount: \$10,000-\$25,000

Indirect Costs: None

LOI Deadline: June 1, 2022

MGB Research Management Deadline: August 22, 2022

Application Deadline: August 31, 2022

Website: <https://proposalcentral.com/GrantOpportunities.asp?GMID=252#>

4. Return to Play Clinical Research Grant, American Orthopaedic Society for Sports Medicine (AOSSM) **NEW!**

The American Orthopaedic Society for Sports Medicine, with support from the Aircast Foundation, invites applications for its return to play clinical research grant. This supports a clinical research project investigating return to play after musculoskeletal injury. Collaborative, multi-center research studies are strongly encouraged and will be a factor in the review process. Studies investigating concussion are not eligible for this grant opportunity. Study participants from any sport or type of sport (e.g. pivoting, contact, overhead), at any age or level of participation, and with common musculoskeletal injuries are ideal for this grant opportunity.

Eligibility requirements (partial list):

- Any investigative team seeking such a grant must include at least one member of AOSSM in good standing.
- No AOSSM Board officer (e.g., President, Vice President, Treasurer, Secretary, etc.) may be a named investigator on any application.
- There is no requirement for Principal Investigators to have obtained peer-reviewed funding.

Citizenship: Unspecified

Award Amount: \$100,000

Indirect Costs: None

MGB Research Management Deadline: May 20, 2022

Application Deadline: June 1, 2022

Website: <https://proposalcentral.com/GrantOpportunities.asp?GMID=252>

5. Science and Technology Awards, CooperVision

The goal of the Science and Technology Award Program is to bring award recipients and CooperVision scientists together to explore new areas of technology advancement. Proposals should demonstrate significant potential for research discoveries within CooperVision key focus areas for 2022. We recognize and highly value the need to find the best ideas that have the potential to deliver benefits to people across the globe.

The key focus areas for 2022 are:

- Novel Methodologies to Enhance Global Ophthalmic Clinical Insights
- New Technologies for Prediction, Prevention, and Treatment of Myopia

Eligibility requirements (partial list):

- Any researcher with Principal Investigator (PI) status holding a MD, OD, or PhD is eligible to apply.
- Applicants, such as postdoctoral fellows, with a waiver of PI status must submit appropriate documentation before funding can be received.

Citizenship: Unrestricted

Award Amount:

- CooperVision Translational Research Award: \$400,000 paid over 2 years
- CooperVision Seedling Award: \$100,000 for 1 year

Indirect Costs: Unspecified

LOI Deadline: July 15, 2022

MGB Research Management Deadline: September 21, 2022

(Invited) Full Proposal Deadline: September 30, 2022

Website: <https://coopervision.com/about-us/science-and-technology-awards>

6. Spinal Cord Injury Research on the Translational Spectrum (SCIRTS) Pilot Research Grants, Craig H. Neilsen Foundation

This funding is intended to support pilot studies that lay essential groundwork, allow the PI to test the feasibility of novel methods and procedures and/or collect new data that can lead to or enhance larger-scale studies.

Citizenship: Unrestricted

Award Amount: \$400,000 paid 2 years

Indirect Costs: 10%

LOI Deadline: June 10, 2022

MGB Research Management Deadline: November 2, 2022

(Invited) Application Deadline: November 11, 2022

Website: <http://chnfoundation.org/spinal-cord-injury-research-on-the-translational-spectrum/>

7. Spinal Cord Injury Research on the Translational Spectrum (SCIRTS) Postdoctoral Fellowships, Craig H. Neilsen Foundation

This funding is designed to encourage specialization in the field of SCI. Postdoctoral Fellowships are intended to provide mentored training in SCI research to early-career investigators. The Applicant (Fellow) should be mentored (or co-mentored) by an investigator experienced in SCI research.

Key criteria for Fellowships include qualifications of the Fellow, how the training plan and environment provided by the mentor(s) will enhance the Fellow's research career, scientific merit of the proposal, and relevance of the project to the Neilsen Foundation and the SCIRTS portfolio.

Citizenship: Unrestricted

Award Amount: \$200,000 paid over 2 years

Indirect Costs: None

LOI Deadline: June 10, 2022

MGB Research Management Deadline: November 2, 2022

(Invited) Application Deadline: November 11, 2022

Website: <http://chnfoundation.org/spinal-cord-injury-research-on-the-translational-spectrum/>

8. Spinal Cord Injury Research on the Translational Spectrum (SCIRTS) Senior Research Grants, Craig H. Neilsen Foundation

Three-year Senior Research Grants encourage senior-level investigators to expand the scope of their work into new directions through targeted studies with high potential to move the field forward. These grants are intended to encourage investigators to open new areas of research, fill gaps in the spinal cord injury field, and test cutting-edge ideas and approaches.

Eligibility requirements (partial list):

- This category is for individuals who are established, independent investigators in a position equivalent to Associate Professor or above, employed at the grantee institution at the time of the FGA submission.

Citizenship: Unrestricted

Award Amount: \$800,000 paid over 3 years

Indirect Costs: 10%

LOI Deadline: June 10, 2022

MGB Research Management Deadline: November 2, 2022

(Invited) Application Deadline: November 11, 2022

Website: <http://chnfoundation.org/spinal-cord-injury-research-on-the-translational-spectrum/>

9. Quantitative Biology Fellowship Award, Damon Runyon Cancer Research Foundation

This award program is designed to encourage quantitative scientists (trained in fields such as mathematics, computer science, physics, engineering, or related) to pursue research careers in computational biology under the joint mentorship of leaders in both computational science ("dry lab") and cancer biology ("wet lab"). By investing in this area, Damon Runyon will bring additional attention to the importance of these specially trained scientists for making

meaningful progress in cancer biology.

Eligibility requirements (partial list):

- Open to quantitative scientists with an interest in the intersection between computational biology, data science and cancer research.
- Applicants must have completed one or more of the following degrees or its equivalent: MD, PhD, MD/PhD, DDS, DVM, DO. The applicant must include a copy of their diploma to confirm date of conferral.
- Applicants require two committed Mentors, one from the field of computational science (“dry lab”) and one from the area of cancer biology (“wet lab”).
- Applicants must not have been in their Mentors' labs for more than 18 months prior to the application deadline date.

Citizenship: Unrestricted

Award Amount: \$234,000 paid over 3 years

Indirect Costs: None

MGB Research Management Deadline: November 21, 2022

Application Deadline: December 1, 2022

Website: <https://www.damonrunyon.org/for-scientists/application-guidelines/quantitative>

10. Acute Care Research Grant (ACRG), Foundation for Physical Therapy Research (FPTR)

The intent of FPTR is to fund the highest quality scientifically based and clinically relevant research with priority given to projects having the most immediate clinical application.

Proposed studies should add or refine the body of knowledge on which physical therapist practice is based using any of a variety of recognized investigative methods, such as experimental, descriptive, or correlational. Proposed studies should begin to address the most critical questions regarding clinical research. The Research Agenda is provided as a guide to identification of those critical research questions.

Studies should seek to do one or more of the following:

- Evaluate the clinical effectiveness of therapeutic interventions
- Assess the interaction between patient characteristics and therapeutic methods
- Explore the scientific basis for interventions used in physical therapy
- Address an item identified in the APTA Research Agenda

In addition, priority will be given to studies which:

- Have direct application to the practice of physical therapy
- Address the need for measurable outcomes
- Ask a new question important to intervention or its validation
- Address a previously asked question with a new methodology, different sampling strategy or a different form of analysis

FPT would prefer that proposed studies:

- Have obtained matching funds or in-kind services
- Provide the basis for larger-scale submissions for funding to external agencies (e.g., NIH)

Citizenship: Unrestricted

Award Amount: \$40,000 paid over 1-2 years

Indirect Costs: None

MGB Research Management Deadline: July 27, 2022

Application Deadline: August 5, 2022

Website: <https://foundation4pt.org/grants/>

11. Foundation Research Grant (FRG), Foundation for Physical Therapy Research (FPTR)

One Foundation Research Grant is to be awarded to an Emerging Investigator for clinically relevant research by seeking to evaluate the effectiveness of physical therapy interventions.

Citizenship: Unrestricted

Award Amount: \$40,000 paid over 1-2 years

Indirect Costs: None

MGB Research Management Deadline: July 27, 2022

Application Deadline: August 5, 2022

Website: <https://foundation4pt.org/grants/>

12. Geriatric Research Grant, Foundation for Physical Therapy Research (FPTR)

The purpose of FPTR's research grant program is to fund research studies in specified areas initiated by emerging investigators. One Geriatric Research Grant is to be awarded for research in methods to facilitate the aging-in-place for older adults in a supportive community setting utilizing novel and innovative approaches for access to physical therapist services and care. Grant proposals should seek to directly promote the health, safety, and overall well-being of all older adults with an emphasis on the protection of marginalized and at-risk populations. Proposals should reflect the current scientific evidence as well as the Research Agenda of the American Physical Therapy Association.

Citizenship: Unrestricted

Award Amount: \$40,000 paid over 1-2 years

Indirect Costs: None

MGB Research Management Deadline: July 27, 2022

Application Deadline: August 5, 2022

Website: <https://foundation4pt.org/grants/>

13. Physical Therapy Education Research Grant, Foundation for Physical Therapy Research (FPTR)

Funds may be requested to meet any type of expense reasonably associated with the research project, including salaries and fringe benefits, purchase or rental of equipment, supplies, travel, publication costs, printing or postage, and special services such as computer time, photographic services, and secretarial or research assistant support.

One Physical Therapy Education Research Grant will be awarded for education research related to methods for promoting the uptake of research findings into education. More specifically, the purpose of this grant mechanism is to design educational interventions to address the gap between evidence and practice. Specific projects may address gaps related to any aspect of physical therapist education ranging from teaching and learning in PT education, course/curriculum design and development, psychosocial educational needs, and/or adoption of clinical practice guidelines by PT students during clinical education training and eventual independent clinical practice.

Studies should seek to do one or more of the following:

- Evaluate the effectiveness of teaching and learning in PT education, including both didactic and clinical education
- Explore improvement in course design and development in physical therapy education
- Explore the best way(s) to move evidence-based approaches to patient care into widespread use by physical therapy students
- Address an item identified in the APTA Research Agenda as it relates to Education

FPTR would prefer that proposed studies:

- Have obtained matching funds or in-kind services
- Provide the basis for larger-scale submissions for funding to external agencies (e.g., NIH)

Citizenship: Unrestricted

Award Amount: \$40,000 paid over 2 years

Indirect Costs: None

MGB Research Management Deadline: July 27, 2022

Application Deadline: August 5, 2022

Website: <https://foundation4pt.org/grants/>

14. Snyder Research Grant, Foundation for Physical Therapy Research (FPTR)

The intent of FPTR is to fund the highest quality scientifically based and clinically relevant research with priority given to projects having the most immediate clinical application.

Proposed studies should add to or refine the body of knowledge on which physical therapist practice is based using any of a variety of recognized investigative methods, such as experimental, descriptive, or correlational. Proposed studies should begin to address the most

critical questions regarding clinical research.

One SRG is to be awarded for research projects to evaluate the effectiveness of physical therapist interventions, within any discipline relevant to physical therapy.

Studies should seek to do one or more of the following:

- Evaluate the clinical effectiveness of therapeutic interventions
- Assess the interaction between patient characteristics and therapeutic methods
- Explore the scientific basis for interventions used in physical therapy
- Address an item identified in the APTA Research Agenda
- Address health care disparities

In addition, priority will be given to studies which:

- Have direct application to the practice of physical therapy
- Address the need for measurable outcomes
- Ask a new question important to intervention or its validation
- Address a previously asked question with a new methodology, different sampling strategy or a different form of analysis

FPTR would prefer that proposed studies:

- Have obtained matching funds or in-kind services
- Provide the basis for larger-scale submissions for funding to external agencies (e.g., NIH)

Eligibility requirements (partial list):

- Groups must designate one (1) member as the Principal Investigator responsible for directing the project.
- Other members of the group may be physical therapists, physical therapist assistants, or persons from other disciplines that are relevant to the proposed study.

Citizenship: Unrestricted

Award Amount: \$40,000

Indirect Costs: None

MGB Research Management Deadline: July 27, 2022

Application Deadline: August 5, 2022

Website: <https://foundation4pt.org/grants/>

15. Postdoctoral Fellowship, Friedreich's Ataxia Research Alliance (FARA) **NEW!**

The Friedreich's Ataxia Research Alliance invites letters of intent for its postdoctoral fellowship. This supports a postdoctoral trainee in the area of Friedreich's ataxia.

The PI may be either the trainee or the trainee's faculty advisor, though both must be named in the application. Applicants must outline career and mentorship plans for the trainee, and provide a letter of reference from the faculty advisor.

Citizenship: Unrestricted

Award Amount: Trainee salary for 2 years

Indirect Costs: None

LOI Deadline: August 15, 2022

MGB Research Management Deadline: October 5, 2022

(Invited) Application Deadline: October 15, 2022

Website: <https://www.curefa.org/grant>

16. Postdoctoral Research Award, Friedreich's Ataxia Research Alliance (FARA) **NEW!**

FARA supports research through funding competitive grants across the spectrum from basic research through drug development and clinical research programs in Friedreich's Ataxia (FA). FARA offers a Postdoctoral Research Award as a mechanism to expand and retain young investigators in the FA biomedical research space.

Postdoctoral trainees should focus their research proposal on projects that fall within FARA Research Priorities:

- Advancing understanding of neuroscience/ systems
- Advancing understanding of cardiac disease in FA
- Advancing understanding of the molecular basis of FA
- Advancing drug discovery
- Facilitating the drug development process and translational research
- Advancing clinical research

Eligibility requirements (partial list):

- Applicants must have completed at least 18 months of postdoctoral training.

Citizenship: Unrestricted

Award Amount: \$100,000-\$200,000 paid over 1-2 years

Indirect Costs: None

LOI Deadline: August 15, 2022

MGB Research Management Deadline: October 5, 2022

(Invited) Application Deadline: October 15, 2022

Website: <https://www.curefa.org/grant>

17. IFCN Education Fellowships, International Federation of Clinical Neurophysiology

The International Federation of Clinical Neurophysiology (IFCN) is pleased to announce the availability of education fellowships that will be awarded to support training in clinical neurophysiology for applicants without access to similar training in their home country.

Eligibility requirements (partial list):

- Member of an IFCN member society, or the International Clinical Neurophysiology Society (ICNS) for members from non-affiliated countries
- Applicants with a minimum of 2 years in core medical training (e.g. neurology, rehabilitation medicine, clinical neurophysiology) are preferred

Citizenship: Unrestricted

Award Amount: \$25,000 for 1 year

Indirect Costs: None

MGB Research Management Deadline: July 6, 2022

Application Deadline: July 15, 2022

Website: <https://www.ifcn.info/scholarship-announcement.asp>

18. Investigator-Initiated Research Grants, National Institute for Health Care Management Research and Educational Foundation (NIHCM Foundation)

NIHCM Foundation supports innovative research that will advance the existing knowledge base in the areas of health care financing, delivery, management and/or policy. Studies must have strong potential to yield insights that can be used to have a positive impact on the U.S. health care system by reducing spending, improving quality of care, and/or expanding access to insurance coverage and health care services.

Citizenship: Unspecified

Award Amount: NIHCM will make up to \$500,000 available to new and existing grantees.

Indirect Costs: 12%

LOI Deadline: July 1, 2022

(Invited) Application Deadline: September 2022

Website: <https://nihcm.org/grants/research-grants>

19. Research Grants Program, Skin Cancer Foundation

Many early career investigators in the dermatology community have used their grants to launch studies on the prevention, detection or treatment of skin cancer that ultimately led to significant advances for patients and physicians. These grants are an important first step to getting new ideas off the ground.

Eligibility requirements (partial list):

- Our program is open to dermatology residents, fellows and investigators within 10 years of their first academic appointment.

Citizenship: United States

Award Amount: \$25,000-\$50,000

Indirect Costs: None

MGB Research Management Deadline: June 29, 2022

Application Deadline: July 11, 2022

Website: <http://www.skincancer.org/for-medical-professionals/research-grants>

20. Education Research Training Grant, Society for Academic Emergency Medicine Foundation/Society for Academic Emergency Medicine (SAEM)

The SAEMF Education Research Training Grant strives to foster innovation in teaching, education, and educational research in emergency medicine for faculty-, fellow-, resident- and medical student-level learners. The mission of the grant is to develop the academic potential of the selected fellow by providing support for a dedicated two-year training period, including pursuit and preferably completion of an advanced degree in education.

Eligibility requirements (partial list):

- Be a member of SAEM in good standing at application deadline and during the entire award period.
- Be board eligible or certified by the American Board of Emergency Medicine or American Board of Osteopathic Emergency Medicine and practicing in an emergency care setting. Senior/final year residents (3rd or 4th year, as applicable to the applicant's residency program) in good standing to graduate from an ACGME accredited emergency medicine residency program may also apply but must complete their residency program before the start of the award period.
- Not have received an Education Research Training Grant (formerly Education Fellowship grant) previously.
- Demonstrate evidence of involvement in SAEM activities and functions. Demonstrated involvement includes number of years as a member of SAEM and participation in SAEM activities and functions (e.g., SAEM presentations and committee membership). Applicants will be judged and scored according to their expressed and demonstrated commitment to SAEM. Greater consideration and potentially higher scores will be given to applicants who can demonstrate this commitment.

Citizenship: Unrestricted

Award Amount: \$100,000 paid over 2 years

Indirect Costs: None

MGB Research Management Deadline: July 21, 2022

Application Deadline: August 1, 2022

Website: <https://www.saem.org/about-saem/academies-interest-groups-affiliates2/saem-foundation/apply-for-a-grant/what-we-fund/education-fellowship-grant>

21. Emerging Infectious Disease and Preparedness Grant, Society for Academic Emergency Medicine Foundation/Society for Academic Emergency Medicine (SAEM) COVID!

The purpose of this award is to support emergency care research related to emerging infectious disease (e.g. influenza, COVID-19, or other infections--this award is not limited to specific conditions). This award seeks to support an ambitious program of acute care science in emerging infectious disease that may include diagnostics, patient and provider safety, intervention/therapeutics, disaster preparedness, or other relevant topic areas. Projects leveraging innovative methodological designs, such as implementation trials, computational methods and data science are encouraged. While the focus is on self-limited research projects that are impactful in the current or future practice of emergency medicine and can be completed in a one-year time frame, the funds apportioned for this award are provided with the hope for investigators to propose an ambitious program of research that can lead to a sustained program of externally supported funded research. The goals of the grant align with mission of the SAEMF to improve emergency patient care through supporting the development of innovative researchers, expert educators and future academic emergency medicine leaders.

Eligibility requirements (partial list):

- Be a member of SAEM in good standing at application deadline and during the entire award period.
- Hold a faculty university appointment with a department or division of emergency medicine or pediatric emergency medicine at the start of the award period. Emergency medicine residents or fellows in their final year of training may apply as long as they will hold a university faculty appointment at the start of the award period. The applicant may work as a clinician at an institution other than the host institution or the institution at which the project will be conducted.

Citizenship: Unrestricted

Award Amount: \$100,000 for 1 year

Indirect Costs: None

MGB Research Management Deadline: July 21, 2022

Application Deadline: August 1, 2022

Website: <https://www.saem.org/about-saem/academies-interest-groups-affiliates2/saem-foundation/apply-for-a-grant/what-we-fund/emerging-infectious-disease-and-preparedness-grant>

22. Research Large Project Grant, Society for Academic Emergency Medicine Foundation/Society for Academic Emergency Medicine (SAEM)

The SAEMF Research Large Project Grant awards funds to support an emergency medicine faculty member to conduct a large-scale research project to advance his/her career and

subsequently obtain federal funding by developing pilot data.

The Research Large Project Grant is expected to:

1. Answer important scientific questions in emergency medicine
2. Foster the growth of the recipient
3. Help the recipient become an independently funded scientist in emergency medicine

Eligibility requirements (partial list):

- Be a member of SAEM in good standing at application deadline and during the entire award period.
- Hold a university faculty appointment in a department or division of emergency medicine or pediatric emergency medicine at the start of the Large Project Grant award period.
- Not have previously received a SAEMF Large Project Grant.
- Not have received an NIH R01 award or equivalent. Eligibility will be assessed at the time of the award decision, so applicants funded by a disqualifying source after submission of their application may become ineligible as a result of subsequent funding decisions.

Citizenship: Unrestricted

Award Amount: \$150,000 for 2 years

Indirect Costs: None

MGB Research Management Deadline: July 21, 2022

Application Deadline: August 1, 2022

Website: <https://www.saem.org/about-saem/academies-interest-groups-affiliates2/saem-foundation/apply-for-a-grant/what-we-fund/research-large-project-grant>

23. Research Training Grant, Society for Academic Emergency Medicine Foundation/Society for Academic Emergency Medicine (SAEM)

The SAEMF Research Training Grant is intended to provide funding to support the development of a researcher in emergency medicine. Its specific goals are:

1. Provide support to an emergency medicine academician awardee for two years of concentrated training and mentorship with an emphasis on learning research methodology. The award is intended to support the development of sound research skills rather than a specific research project.
2. Enhance the likelihood of the selection of an academic research career by the awardee.
3. Facilitate the support of research training in the awardee's host institution for emergency medicine research scientists.
4. Encourage the awardee's academic development and involvement in emergency medicine research.

Eligibility requirements (partial list):

- Be a member of SAEM in good standing at application deadline and during the entire award period.
- Hold a university appointment (e.g., faculty, fellow, or similar) in or be actively involved (e.g., have an adjunct appointment) with a department or division of emergency medicine or pediatric emergency medicine at the start of the Research Training Grant award period. Emergency medicine residents in their final year of residency may apply for the Research Training Grant, subject to the same stipulation of holding a university appointment at the start of the Research Training Grant award period. The applicant may work as a clinician at an institution other than the host institution or the institution at which the project will be conducted.
- Not have previously received a SAEMF Research Training Grant, an Emergency Medicine Foundation (EMF) grant with similar purpose as the SAEMF Research Training Grant, a federally funded individual career development award (K-series or VA CDA), a federally funded R01 or equivalent, or a similar research training grant from another entity, prior to the start of the Research Training Grant period.

Citizenship: Unrestricted

Award Amount: \$300,000 paid over 2 years

Indirect Costs: None

MGB Research Management Deadline: July 21, 2022

Application Deadline: August 1, 2022

Website: <https://www.saem.org/about-saem/academies-interest-groups-affiliates2/saem-foundation/apply-for-a-grant/what-we-fund/research-training-grant>
